

# GRADISCA

## ORIGINAL STYLING WITH A CHROME FINISH

This is the upgraded version based on Brasilia's flagship traditional espresso machine of the last 10 years. This model differs through its incorporation of the Dynamic Infuser pre-infusion device in the brew groups, giving enhanced coffee extraction and temperature stability levels.

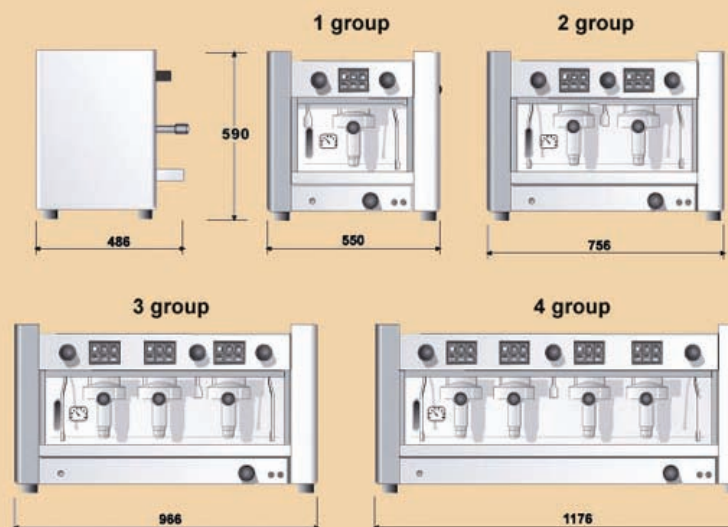

### KEY FEATURES

### BAR LINE

- Fully automatic with controlled volumetric delivery by keypad (plus push button for continuous delivery)
- Raised group heads allow up to 16oz takeaway cups or tall latte glasses
- Large capacity boiler for continuous dispensing and high volume steam supply
- Automatic boiler water level
- Boiler water level gauge.
- 2 swivelling steam arms
- Moveable hot water tap
- Rossi brewing system
- Large capacity electrical cup warmer
- Brew groups can be arranged for combined use with pods (for special blends, decaf and infusions) and ground coffee.
- Brewing groups with pre-infusion device
- Electronic control system with auto-diagnostics
- Brewing groups with automatic washing and rinsing cycles.

### SPECIFICATIONS
