

Franke Coffee Machines

Flair

Flair

Facts & Figures

Flair

Low volume Franke Flair has many of the features of a mid- or high-volume superautomatic espresso machine:

- Two grinders for regular and decaf coffee
- Eight drink buttons
- Ability to make cappuccinos and lattes at the touch of a button
- Hot water and steam wands add to drink flexibility
- Highly programmable to dial in beverage choices and quality
- Coffee outlet moves up and down to accommodate various cup sizes
- Easy to clean
- Level sensors in the bean hoppers to prompt for refilling before hopper is empty
- Easy to read LCD displays machine status and guides you through cleaning process

Other features make Franke Flair a unique asset in lower volume settings:

- Operates on 110v, 15amp circuit (normal electrical outlet)
- Has a self-contained water tank (no plumbing required)
- Weighs just 40 pounds and is highly transportable
- Has affordable and easy to replace parts
